FATAL INJURIES IN A COLLISION NEAR SALT LAKE

Salt Lake, June 30.—Ernest Fitzgerald, 24 years of age, suffered probably fatal injuries in a collision between his motorcycle and an express wagon west of the Jordan river at 9:45 o'clock last night. John P. Emery, 21 years of age, son of George R. Emery of 37 North Seventh West street, who was on the motorcycle with Fitzgerald, was also seriously injured.

A shaft of the wagon pierced the right side of Fitzgerald's neck, ranged downward, tearing through the upper part of his lungs and emerged

CANDY IN THE HOT WEATHER

is apt to spoil, so we have secured a candy refrigerator and our Chocolates are always cold and fresh. The next time you buy her a box of candy get it here and you will be certain to get candy that is fresh and good.

through his back. His chances of recovery are thought to be slight. Emery suffered a fracture of the front of the skull. It is believed that he will recover.

Though search was made by the police until an early hour this morning in the hope of finding the wagon that figured in the collision, no trace of it was discovered. Neither was a clue found to the identity of the two men who were seen in the wagon and who drove on without investigating to see if the riders of the motorcycle were dead where they lay in the road.

Word of the accident was telephoned to police headquarters by E. Simmons of 1376 West North Temple street, who heard the crash of the two vehicles a few minutes after he had retired for the night. Simmons dressed and got outside in time to see the two men in the wagon drive away westward. Stanley Henry, 12 years of age, son of a neighbor of Simmons, saw the accident.

According to his story to Police Inspector Carl A. Carlson and Patrolman J. P. Emery last night, the wagon was traveling west on the south side of the road and that the collision had occurred when, at the last instant, an attempt was made to steer the motorcycle to the other side of the road to avoid the wagon. Both the victims of the collision were too dazed to recall any of the circumstances of the accident when they recovered consciousness after they had been removed to the emergency hospital in the police ambulance.

Fitzgerald was removed immediately from the emergency hospital to St. Mark's hospital after his wounds had been given attention by Dr. H. B. Sprague. Emery was first taken home and later to the L. D. S. hospital. The fact that the young man partially recovered consciousness while at the emergency hospital led to the belief at first that he was not dangerously hurt.

Mrs. Frank Fitzgerald, mother of Ernest, was taken to the emergency hospital in a police automobile and went with her son to St. Mark's hospital. Fitzgerald was employed as a repair man in the motorcycle shop of Louis Anderson on South State street.

Washington, June 29.—Indications today were that the decision of the interstate commerce commission on the application of eastern railroads for a five per cent advance in freight rates would not be made public during the present week as had been expected. The decision may not be announced for at least two weeks, and possibly not for a longer time than that, as it is known that some serious phases of the general questions involved remain to be settled before a conclusion can be reached.

It is stated authoritatively that reports during the last week or two, purporting to give the conclusions of the commission in the pending case, are founded only on conjecture, and that the commission as yet actually has reached no final conclusions.

Showing of Shippers.
One of the serious conditions which has been encountered is what has been termed the "lopsidedness" of the record of the case as respects certain commodities. For nearly a month testimony was taken by the commission as to the reasonableness of rates on certain specified commodities; the evidence being given practically entirely by shippers of the commodities. Most of the witnesses maintained either that existing rates were too high or that they were fairly reasonable, and every one protested against any advance on his particular commodity.

Counsel for the railroads submitted very little testimony and in some instances none at all, in rebuttal of this evidence. The result so far as the commission is concerned is that as to these commodities the record of the case is strongly indicative of the reasonableness of existing rates.

Doubt Has Arisen.
It is explained now by the railroads' counsel that they were relying for favorable action upon their application for an advance upon their general evidence that they needed additional revenues. Doubt has arisen, however, in the minds of the commission as to whether, regardless of any conclusion on the railroads' evidence, it would be justified in making a horizontal advance in the face of uncontradicted testimony of the reasonableness of certain specific rates.

That is only one of the snags which the commission has struck in its efforts to resolve the evidence contained in the voluminous record of the case. Differences of opinion naturally have arisen among the seven commissioners and when none of them seem to be insuperable, all of them require time to resolve.

Recess Postponed.
Ordinarily the commission takes a recess for the summer about July 1. Some of the commissioners had prepared to leave the city for at least a brief time this week, but the situation of the pending case is such that the taking of a recess will have to be postponed for some time. Assignment has been made of two or three cases to be heard by commissioners within the next ten days but they are not of such a character as will keep the commissioners long away from Washington.

ASSAY OFFICE WILL STAY ANOTHER YEAR.
Washington, June 29.—Secretary Lane today announced that 22,000 acres of land in San Juan and Washington counties have been placed under the enlarged homestead act, having been inspected by agents of the general land office and found non-irrigable in character. The conference committee on the legislative appropriation bill today agreed to retain the assay offices at Salt Lake City, Boise and other western cities on the same basis for the coming fiscal year as they are being conducted for the present fiscal year. This will give the Salt Lake City office an assayer in charge at \$1800; an assistant assayer and chief clerk each \$1200; workmen, \$2000; contingent expenses, \$1000.

A similar equipment and appropriation is made for Boise. The western advocates for the retention of the offices were represented on the conference committee by Senator Warren of Wyoming.

BRIGHAM BOYS DRIVE A HIRED HORSE TO DEATH

Brigham City, June 29.—Russell Nelson, his brother Marlinus and Christian Westgard, son of Andrew Westgard of Fifth West Forest street, were arrested Sunday when they returned to the stables of W. G. Glover, from whom they had hired a rig. One of the horses dropped dead upon entering the stable. The boys hired the rig in the morning to make a trip to Deweyville, where they agreed to place the team in good care until they got ready to return. Instead, the boys, with three girls from town, took in Brigham in the forenoon, keeping the horses on a fast pace all the while. Upon finishing Brigham the party drove to Ogden, twenty-one miles, and finished up by driving to the Hermitage in Ogden canyon. From the appearance of the horses at the stable the animals had been mistreated shamefully and indicated that the homeward trip had been made on a swinging trot. Altogether the horses were driven more than a hundred miles, it is reported.

There being no humane officers in this city, the boys were placed under arrest upon the advice of Mr. Glover. They are to pay \$150 to the stable for the dead horse.

The sight of the team so aggravated Stablekeeper Torre Jeppesen that he immediately thrashed one of the Nelson boys, who in turn swore to a complaint, charging battery. Upon a hearing before City Justice C. O. Christensen today Jeppesen was fined \$5, the fine being promptly remitted by the court.

W. MATHERS' EXHIBIT OF OLD AND RARE PISTOLS
William Mathers of Plain City, the only representative in Utah of the International Society of Archaeology, has a rare collection of antique pistols on exhibition in the show window of the Browning Brothers' store on Hudson avenue, which are in marked contrast with the weapons made by John Browning today. Following is a list of the pistols:

Persin Flint lock, pepperbox six-shooter, first in the world; single shot double action; six-shot pin fire; fore finger cock and snap pistol; six-reels, the firing pin revolving in the breech, made in 1860; six-shot cap and ball English make, found last year on the plains of Mexico; single shot rim fire, William's patent; gent's derringer; lady's derringer single shot, cap and ball, worn in the hair of Lady Custer for self-protection; Sharp's patent, 1859, four-barrel, hammer, superxposed double barrel, American make, 1866; single barrel Flint lock, by Bass, issued to British marines previous to the battle of Waterloo; old time single shot, opens upward in reloading; single shot rim fire; side fire pistol, 1854, hammer strikes cap on the side of the weapon; cap and ball single shot; Smith and Wesson six shot, center fire, made in 1860; Colt's 45 six-shooter; an American bulldog six-shooter, center fire.

ONE OF UTAH'S FIRST PIONEERS IS CALLED

Salt Lake, June 30.—Margaret R. Bird Smith, one of Utah's earliest pioneers, died at her home, 735 E street, at 9:30 o'clock yesterday morning. The cause of death is attributed to general debility.

The following information is copied from a notice of her death, written by Mrs. Smith six years ago: "Margaret R. Bird Smith, daughter of Edmund F. and Mary Montgomery Bird, was born on the 6th of March, 1837, in St. John, N. B. and came to Boston with her parents when she was three years old, was baptized when she was eight years old by Brother Badlam. She came to Utah in 1859 in Brother Woodruff's company, and was married by Brigham Young to W. S. Smith, February 2nd, 1857, by whom she had nine children, six sons and three daughters."

She is survived by three sons and two daughters: Edmund F. Smith of Murray, J. Arthur Smith of Butte, and W. C. T. Smith of Farmington. Mrs. R. T. Pyper of Salt Lake, Mrs. Frank Smith of Ogden, eighteen grand-children and one great grandchild. Notice of the funeral arrangements will be published upon arrival in Salt Lake of the children who have been telegraphed for.

SERVICES FOR MRS. COOK.

Springville, June 29.—Funeral services for Mrs. Martin Cook, were held at 2 o'clock this afternoon at the residence of her son, Mark Cook. Bishop J. F. Bringham of the Second ward preached the funeral sermon, and vocal selections were rendered by the Robinson brothers.

ELECTRIC POWER IS TO PUMP WATER AT WILLARD

Brigham City, June 29.—It is reported in this city that land owners in the vicinity of Willard are contemplating the installation of electrically operated wells for irrigating purposes. As an experiment to determine just how big a flow could be encountered, A. A. Lemon of North Willard dug a well and struck a good flow of water at forty-six feet. A fairly good flow was realized by means of a hand-propelled pump, but in order to test the flowing capacity of the well for the benefit of other land owners who owned dry land in that vicinity and are anxious to secure water in sufficient quantities to cover their land, the Utah Power & Light company has installed a deep well pump on the premises of Mr. Lemon and the trout for a large flow of water was most encouraging. It was demonstrated with the electric pump in operation that a flow of seventy-five gallons per minute could be realized perpetually without hampering the supply in the well. This particular well is said to be located on the bench lands north of Willard, which makes the success of the enterprise all the more valuable.

The Utah Power & Light company has purchased the power plant at Willard which was previously owned by the Ogden Rapid Transit company and is said to be lying idle owing to that company's furnishing power from its larger lines to the transient company, and with the operation of a number of irrigation wells the power plant at Willard would be placed in operation during the irrigating season for furnishing power for wells.

Many electrically driven wells are now in operation in this city and immediate vicinity and have proved a boom to land owners, and have reclaimed hundreds of acres of otherwise arid land, both within the city limits and all around the outskirts. With the prospects of being able to purchase power the farmers to the south as far as Hot Springs will undoubtedly make experiments in the immediate future with a view of digging wells and equipping them with electrically driven pumps and thereby reclaim hundreds of acres of fine land.

MAYOR TURNER MAKES A PUBLIC STATEMENT

Pocatello, Ida., June 29.—In further response to the action of the agents of the government who have preferred charges against United States Commissioner Theodore Turner, who is also mayor of this city, Mr. Turner makes public this statement:

"Charges made by field agents of the department of the interior that excessive fees have been collected by me are based upon a theory that fees paid to attorneys and land companies preparing papers, which have been sworn to before me, should be regarded as fees collected by me. I have never at any time collected any fees for services as United States commissioner in excess of those allowed me, by law.

"The charge of having improperly taken testimony in final proofs and certified as to such taking of testimony is disproven by the government's own witnesses. The charge of improper advice is not worthy of any more serious attention than the other two charges, and no testimony can be produced to support such charges. I am not guilty in any sense of the word of any of the charges preferred, as the testimony produced at the hearing indisputably proved. I will be fully vindicated when the matter is passed upon by the proper authorities."

EACH SIDE CLAIMS WET-DRY ELECTION

Salt Lake, June 30.—Murray, Sandy and Midvale will vote today on the liquor question. Anti-saloon workers are bending every effort to make the three towns dry while the opposition is likewise working hard to make them wet. At present Murray is a prohibition town and Sandy and Midvale have saloons.

The fight in the three towns has been very vigorous and the campaign came to a close last night with both sides claiming victory. The verdict at the polls today will become effective next October.

The men interested in defeating prohibition in Murray have issued a circular in which they state that prohibition in Murray has diverted the money formerly received by the saloons to the wholesale liquor dealers who have sent the liquor to the homes instead of to the saloons. They point out that in the past two years there have been twenty-five arrests in Murray for violation of the prohibition law. Of these there have been five who pleaded guilty, three dismissed, two who forfeited bail, ten who appealed to the district court and five whose cases are pending. The cost of prosecutions has been \$27.10 and the fines and forfeitures amounted to \$440, leaving a net loss of \$212.90. Added to this was the loss of \$26,000 in saloon licenses. The money formerly received in Murray saloons, it is pointed out, is merely diverted to Salt Lake.

Isolde Beldier's petition to be recognized as the daughter of Richard Warren has been dismissed. This decision ended a controversy of long standing.

VIGILANTES WILL REMAIN IN LEAGUE

Helena, June 29.—Helena will start the second period of the Union association schedule. This was assured today when the faithful fans who have kept Helena in the association for three years raised about \$1000. Colonel Tom Cruise, a multi-millionaire, gave his check for \$500, and with that as a starter the committee duplicated it. More money must be raised.

PLAIN CITY TO HAVE FOURTH OF JULY CELEBRATION

The leading citizens of Plain City have planned a municipal "safe and sane" Fourth of July celebration and Attorney William W. Harcombe of Ogden is to be orator of the day. A patriotic program is to be given in the morning; field sports for the young people and a baseball game in the afternoon and a dance in the evening. The children's games will start at 1 o'clock, the baseball game, which will be between the Oregon Short Line team of Ogden and the Plain City team, at 2:30 o'clock, and the dance will begin about 8:30. The program to be given in the morning will be as follows:

Music Neal Orchestra
Singing, "America" Congregation
Prayer, Chaplain Henry L. Maw
Solo Chester England
Declaration of Independence, read by James Stewart
Recitation Mrs. Wm. A. Kerr
Solo Sona W. Inson
Oration, Wm. W. Harcombe, Ogden
Musical Selection Neal Orchestra
Five-minute Stump Speech James Williams, Ogden
Solo Martina Taylor
Recitation William G. Rhead
Benediction by Chaplain Henry L. Maw

SMELTER CHEMIST IS BURNED TO DEATH AT TOOELE

Tooele, June 29.—Practically covered with burning oil which caught fire when an oil tank under pressure in the fire room of the International smelter, near Tooele, exploded, A. A. Austin, head chemist of the smelter, was severely burned this morning at 10:30 o'clock that he died at 5:30 o'clock this afternoon, after being rushed to the hospital on a special train. His parents arrived from Salt Lake at 4:30 today. Mr. Austin had been with the company for the past eight years, four of which he spent in Anaconda, Mont., and the last four of which were at Tooele. No arrangements have as yet been made for the funeral but it is probable that it will be held in Salt Lake under the auspices of the El Kalah temple of Shriners, of which he was a member.

Mr. Austin had been planning an experiment for the purpose of firing the furnaces at the smelter with oil. In the room with him was Joseph Jettie. They were pumping the oil by air pressure. Mr. Austin saw the oil tank begin to bulge and ordered the air turned off. Before his order could be executed, however, the tank burst, drenching the room and both men.

Mr. Jettie, though covered with oil, escaped as the oil on him did not catch fire. The oil on Mr. Austin caught fire immediately and he ran from the room and jumped into the dust outside, attempting thus to put out the flames. William Clemo, Patrick Lodge and W. Cudahan ran to his assistance, tearing the smoldering clothing from his body.

As quickly as possible a special train was rushed from Tooele to the smelter and the injured man taken to the hospital at Tooele. Though the burns on his body were slight, they covered so much of the surface that the nerves were affected and despite medical attention he died at 5:30 o'clock.

The damage to the smelter building in which the accident happened was slight.

Mr. Austin was married in 1909, at Grand Fork, B. C., to Miss Marion Hodges of that place, the daughter of A. B. W. Hodges, manager and builder of the Granby smelter at Grand Forks, B. C. He was employed as chemist for four years at the smelter owned by the same company at Anaconda, Mont., and had been at the Tooele smelter for the past four years.

He is survived by his widow, a daughter, Joy, 5 months old, and his parents, Mr. and Mrs. L. S. Austin of 251 West Second North street, Salt Lake.

His body has been taken to the undertaking parlors of Maron England at Tooele and will probably be sent to Salt Lake today.

Isolde Beldier's petition to be recognized as the daughter of Richard Warren has been dismissed. This decision ended a controversy of long standing.

VIGILANTES WILL REMAIN IN LEAGUE

Helena, June 29.—Helena will start the second period of the Union association schedule. THE FILTHY, DIRTY, DISEASE BREEDING FLY

If you found a fly in your soup you would not eat it.

But what about the fly which crawls all over your meat before you buy it?

If you knew it, you would not eat that either, but you don't know.

You are safe only when you purchase U. S. Inspected Meats.

The Fly has no access to them—It cannot carry the filth, dirt, disease and bacteria from the mire and corruption of its haunts into our U. S. Inspected Meats; because they are thoroughly protected by being completely wrapped in knitted white cotton bags, protecting them against flies and dirt from the time they leave our plant until delivered at the markets.

This feature of our method of delivery is in line with the cleanliness and sanitation existing throughout our entire establishment. By noting the contrast between our neat, clean and sanitary manner of handling our meats and the way the uninspected kind of meats are exposed to the flies and dirt of the streets, you will have somewhat of an idea of the differences in sanitary conditions between Government Inspected Plants and uninspected Slaughter Houses.

You are vitally interested in this propaganda; it is being done for YOUR PROTECTION. You may easily learn whether your market is handling meats that are properly protected, by stepping down town some morning early and watch the meats delivered to your dealer. Or—Still better, call us up and we shall cheerfully tell you.

FOR YOUR OWN PROTECTION PURCHASE YOUR MEATS AT MARKETS WHO HANDLE U. S. INSPECTED MEATS EXCLUSIVELY.

WATCH FOR THE U. S. INSPECTION STAMP ON ALL YOUR MEATS.

OGDEN PACKING & PROVISION CO.

Wholesalers of meats that are sound, wholesome, clean and free from disease.

but President Murphy, who has been bolstering up the Vigilantes' finances, said tonight that Helena hackers as sured him they would go through, and he is going to let them do the worry.

To cut down expenses the Helena directors released Jesse Garrett, who was deposed as manager, to Butte. Garrett will take his regular turn on the Coppers' pitching staff. President

Murphy is doing the watchful waiting act on the Murray situation, assuming that the Murray promoters are going to start the second period some way.
